6. Contact us

Brand messages that move.

As the marketing unit for the world's largest micromobility fleets with more than 118 million rentals in 2023, our bikes, eBikes and eScooters are right where urban life happens.

Our vehicles offer a lot of tangible added value

- For the cities by making them cleaner and more liveable - in 2023 alone, 20 million kg of CO2 were substituted by nextbike rides.
- For our millions of users in Germany who simply love their flexible mobility and consciously want to live more sustainably.
- For advertisers who generate an extraordinarily high number of contacts with the urban-positioned bikes and automatically benefit from the sustainable image of sharing.

Nationwide

> 110 cities

> 20.000

> 76.000

Worldwide

27% use nextbike several times a week

Over 45% use nextbike to get to work/university

The majority of nextbike and TIER users are above average educated and well off.

Effect & contact strength

Advertising on bikes and scooters is not only convincing in terms of quantity. Analyses and studies prove it: The quality is also right.

A study conducted by Innofact AG on the Ecosia campaign shows a measured increase in advertising perception (recognition) of **around 38% (cf. zero wave).**

The (unaided) perception of advertising among people who have seen search engine advertising rose from 11% to 29.3%.

The Senozon agency also used movement data from Telefonica (O2) to determine how many people spent at least 60 seconds within a maximum radius of 25 m from the nextbikes.

The advertising on nextbikes is potentially seen up to **5,000 times* per day** (peak daily value).

We will be happy to provide further insights and more detailed information in a personal meeting.

Gross contact opportunities/bike/day*

Berlin	3.839
Frankfurt	4.284
Düsseldorf	1.995
Köln	2.079

Awareness**

70,6 % of the respondents (16-65) know nextbike (supported).

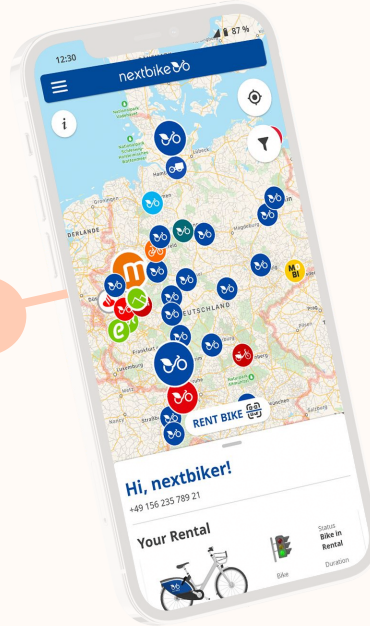

Acceptance***

92 % of users are **not bothered** by advertising on nextbikes.

The nextbike app

4,5 stars

On average in iOS and Android

100% Inhouse developed

Several touchpoints for companies with nextbikers

Our reach in the university environment

Partnership with 63 universities & colleges

Students at these institutions travel at reduced rates and generate an above-average share of usage.

You can also reach students at all other locations with a campaign.

How: by offering travel credit exclusively for students with your campaign. As a mobility added value together with your individual advertising message. We will be happy to advise you!

The university network - 19 cities

City	Residents	State
